Room: \_\_\_\_\_

Age: High School      College

Grade Level (If applicable): \_\_\_\_\_

Onsite Projector (Ability to project power point): Yes      No

Pathways includes five modules, each 60-90 minutes long.

Subject	Date	Time	Number of Students

## Module Descriptions

**Aligning College and Career** - Students will: identify skills sets and interests for a variety of careers; explore the positions and salary ranges available within their desired careers; determine the educational requirements necessary to pursue their desired career; and, research schools that offer programs that further career objectives.

**Comparing Schools, Exploring Expenses** – Students will: research salary averages based on specific education and career aspirations; learn the total cost of their desired schools(s); compare total post-secondary expenses versus out of school annual salary and determine return on investment.

**Financing College** – Students will: explore the different options available to pay for college; review available college loans and how interest accumulation and payback options vary; and, learn the basics of a FAFSA and where to access additional support in completing an application.

**Reducing Debt Accumulation** – Students will: learn how student debt accumulation affects one's financial future and other life goals; learn how to budget to help limit student debt accumulation and spend and save money wisely; and, explore options for paying a greater amount of education expenses while in school.

**Managing Debt After Graduation** – Students will: take a realistic look at post-college living expenses; understand loan restructuring and consolidation options; create a budget for post-college life that includes student loan payments; and set long-term financial goals that incorporate savings and debt management.
